

## Paper submission and publication rules

### *Subjects of papers*

Scientific e-journal accepts research papers on the following branches of science:

Code	Area
03.00.00	Biological sciences
06.00.00	Agricultural sciences

### *The Journal key subjects*

- Forest policy, forest management, forest legislation
- Forest science, silviculture,
- Forest plantations
- Conservation and protection of forests
- Forest ecology
- Forest radiation ecology
- Forest genetics, tree breeding and introduction
- Forest soil science
- Forest amelioration
- Forest management and inventory
- Remote sensing and GIS procedures in forestry
- Overseas information
- Outlook
- History pages

### *Review*

One of the key VAK requirements to scientific journals that publish research findings is availability of reviewing institution (for manuscript expert assessment).

Papers published in “Forestry information” e-journal undergo bilateral blind review and scientific editing. All needed review information is available on “Review procedure” page ( refer : Review procedure”.

### *Paper format specifications*

#### *Paper structure*

• Proposed for publication papers should comprise research findings in forestry and ecology. Paper should highlight:

- ✓ Paper goal.
- ✓ Addressed tasks.
- ✓ Conclusions that reflect originality of the findings proving that paper goal was reached.

- List of cited literature should be presented under the GOST 7.1-2003 in Russian and English languages

*Paper format specifications*

1. UDK.
2. Paper title in Russian and English languages
3. Author (s) – Full name (in full in Russian and English languages), organization full name (in full in Russian and English languages), position held, science degree, academic title, address (state, city in Russian and English languages), contact phone and e-mail..
4. Abstract of 3-5 sentences highlighting key paper topics.
5. Key words in Russian and English languages - 5-7.
6. List of cited literature should be presented under the GOST 7.1-2003 in Russian and English languages (refer “Shaping of cited literature list”) as a general list in order of text references in square brackets. References to unpublished papers are not allowed.
7. Summary is a brief paper presentation and should cover paper goal, research procedure and key conclusions – 250-300 words in Russian and English languages (refer “Summary preparation”).
8. Specifications for illustrations – graph and picture lines should be grouped in a file, photographs should be presented in a separate file in jpg format..
9. Bibliographic references should be shaped under the GOST 7.0.5-2008 «Bibliographic reference”.

**Shaped under above specifications paper should be e-mailed to editor office on [lhi.vniilm.ru](mailto:lhi.vniilm.ru).**

**Titles of all files forwarded to editor office should comprise author name. !**

*Paper wording example:*

UDK 630\*28

**ВЛИЯНИЕ ЛЕСОХОЗЯЙСТВЕННОЙ ДЕЯТЕЛЬНОСТИ НА СОСТОЯНИЕ И ПРОДУКТИВНОСТЬ ПИЩЕВЫХ И ЛЕКАРСТВЕННЫХ РАСТЕНИЙ**

**И. В. Петрова**

*Всероссийский научно-исследовательский институт лесоводства и механизации лесного хозяйства*

*Ведущий научный сотрудник, кандидат биологических наук*

*Российская Федерация, г. Пушкино Московской области*

E-mail: [petrova@mail.ru](mailto:petrova@mail.ru)

**Т. М. Иванов**

*Федеральное государственное бюджетное научно-исследовательское учреждение*

*«Совет по изучению производительных сил»*

*Российская Федерация, г. Москва*

E-mail: [ivanova@mail.ru](mailto:ivanova@mail.ru)

**Аннотация** Все участки растительности как объекты ... (3-5 предложений о проблематике статьи)

**Ключевые слова:** *лесохозяйственные мероприятия, черника, брусника, проективное покрытие (не более 5–7 ключевых слов).*

## **ТЕКСТ СТАТЬИ**

ЦЕЛЬ ...

РЕШАЕМЫЕ ЗАДАЧИ ....

ВЫВОДЫ ....

## **СПИСОК ЛИТЕРАТУРЫ**

1. Зворыкина, К. В. Плодоношение черники в лесу и на вырубках / К. В. Зворыкина // Растит. ресурсы. – Т. 6. – 1970. – Вып. 4. – С. 550–557.
2. Зворыкина, К. В. Влияние вырубки на урожайность черники / К. В. Зворыкина // Продуктивность дикорастущих ягодников и их хозяйственное использование. – Киров : Всесоюзный научно-исследовательский институт охотничьего хозяйства и звероводства, 1972. – С. 17–19.
3. Пронина, Е. Л. Влияние лесохозяйственных мероприятий на урожайность черники в первичной группе типов леса : автореф. дис. ... к. с.-х. наук / Е. Л. Пронина. – М. : ВНИИЛМ, 1987. – 24 с.

**REFERENS** (*список литературы на англ. языке*)

**SILVICULTURAL ACTIVITY IMPACTS ON FOOD AND MEDICINAL PLANT CONDITION AND PRODUCTIVITY** (*название статьи на англ. яз.*)

**I. Petrova**

**Russian Research Institute for Silviculture and Mechanization of Forestry**

*Leading researcher, candidate of biological sciences*

*Russian Federation, Pushkino, Moscow region*
